

What Does TFA Stand For?

Our core values of Passion, Integrity, Fun and Enjoyment, Competition, and Respect are vital to the long-term success of our players. TFA is committed to developing these qualities and we strive to grow not only soccer players, but responsible young men on and off the field.

Our Commitment:

We focus on balance, developing The Person and The Player through the game of soccer.

We place players in a competitive and enjoyable environment, challenging them to make their own decisions.

Our Vision:

Every single player is a better person because they compete/competed for TFA.

Our Results:

The player makes better decisions on the field which leads them to make better decisions in life.

SPRING

SPRING BREAK DROP-INS:

On Tuesday (March 26) and Thursday (March 28), we will have drop-in training for all players who are in town during the spring break. These trainings will take place at the Soccer Center Dome in Rossford from 5:00-6:30 pm. All players who are available are strongly encouraged to attend.

SPRING LEAGUE GAME SCHEDULES:

All spring league game schedules are now available on Team Connect! If you have not yet signed up for Team Connect, please contact Elaine at registrar@tfasoccer.org as soon as possible for instructions.

SPRING TRAINING BEGINS MONDAY, APRIL 8:

SPRING	START: 8-Apr	FINISH: 30-May		
	Monday	Tuesday	Wednesday	Thursday
5:30-7:00pm	U10R/U12R/U13R		U10R/U12R/U13R	
5:30-7:15pm		U15R/U16R/U16W		U15R/U16R/U16W
6:30-8pm	U14R/HS OPT	JA-YA OPT	U14R/HS OPT	JA-YA OPT
6:45-8:30pm		U15W/U17R/U19R		U15W/U17R/U19R
7:00-8:00pm			HS GK's	JA-YA GK's

Spring outdoor training offers players the opportunity to train up to four times per week (two mandatory/two optional). Players should attend their team's two mandatory trainings unless there is an excused absence (excused absences include illness/injury, important family events, religious events or school functions, not including other sports events/teams). For absences to be excused, players/parents must contact their Head Coach as soon as they have confirmation of missing a mandatory TFA event.

We also strongly recommend and encourage our players to attend the two optional trainings, these are varying themed scrimmages that brings TFA practice to game ratio to a healthy 4 to 1. Youngers get to mix and play with older players and our older players are given responsibilities to show their leadership qualities.

Speed and Agility will be included within mandatory training sessions.

GK training is also strongly recommended for any goalkeeper who will participate for any minutes during league or tournament games.

And they're off!

◊ The Golden Circle tour allows you to visit some of Iceland's most stunning sights; Geysir geothermal area, the waterfall Gullfoss, and the UNESCO site Þingvellir National Park as well as to learn about growing vegetables in a country which doesn't get much daylight for most of the year.

◊ Geysir geothermal area is in South Iceland, near Laugarvatn Lake. The area is named after the biggest, and now mostly dormant, geyser Geysir and all geysers in the

world owe their name to it. The biggest attraction today is the active Strokkur, which shoots up a column of water up to 30 metres (98 ft.) into the air every few minutes.

◊ Gullfoss is one of the most famous waterfalls in Iceland and rightly so. The three-step waterfall is a part of the glacial river Hvítá and falls into a 62-metre (105 ft.) deep canyon. For the first half of the 20th century, there were ideas about using the waterfall to generate electricity, but thankfully nothing came of it.

◊ The UNESCO site Þingvellir National Park is geologically and historically significant. Apart from being the location of the oldest parliament in the world, Alþingi, it is also a place where you can see the Mid-Atlantic ridge above ground. The Eurasian and North-American tectonic plates pull the country apart by a couple of centimetres per year.

◊ Friðheimar greenhouse cultivation centre is one of Iceland's biggest greenhouses. We will learn about the magic behind growing delicious, pesticide-free tomatoes with the aid of geothermal heat which Iceland has in abundance. Friðheimar uses pure Icelandic cold water for irrigation and gets help from about 600 bumblebees to pollinate the tomatoes.
